Information Security Performance Overview

Score Breakdown

PUBLICIS GROUPE Information Security performance is: **Mature**

Information Security Performance ● Insufficient ● Basic ● Moderate ● Developed ● Mature — Average Score

About CyberVadis

CyberVadis is the scalable solution for managing the full third-party cybersecurity risk assessment process. The CyberVadis platform is based on a methodology that maps to all major international compliance standards, and combines the speed of automation with the accuracy and effectiveness of a team of experts.

Our Methodology

The CyberVadis framework is composed of 19 criteria grouped into 4 main areas in line with international cybersecurity standards and regulations, such as **ISO 27001, NIST Cybersecurity Framework, the European Data Protection Regulation (GDPR)**, etc. Our experts ensure that the CyberVadis Framework is continuously reviewed and updated, in line with industry IS standards as well as international laws and regulations.
